Experiencies

Pormel S.A , *Backend Developer* 05/2025 – Present | Montevideo, Uruguay
Development with Node.js, TypeScript, and NestJS under hexagonal architecture for EDEMSA, EDENOR, and Volcan, covering complete modules (domain, application, and infrastructure) with CRUDs, REST APIs, and cross-cutting auditing. Unit testing of critical use cases and reduction of technical debt using SonarQube. Persistence in PostgreSQL, MariaDB, and Oracle DB; task management with Jira.

Pormel S.A, *QA-Automation* Present | Montevideo, Uruguay
End-to-End (E2E) test automation, ensuring validation of complete workflows and the functional stability of the systems.

Freelancer, *Full Stack* Remote
Custom web application development for small businesses with React, Node.js, TypeScript, NestJS, and MongoDB Atlas.
