Profile

- Software Developer, specialized in the Node.js ecosystem with TypeScript.

Experiencies

05/2025 – Present
Montevideo, Uruguay

Pormel S.A , *Backend Developer*
Pormel Software Energy, Backend Developer *Montevideo, Uruguay*
Backend development with Node.js, TypeScript, NestJS and Redis under hexagonal architecture and CQRS for EDEMSA, EDENOR and Volcan. Development of complete modules (domain, application and infrastructure) with CRUDs, REST APIs and cross-cutting auditing. Unit testing of critical use cases and reduction of technical debt with SonarQube. Persistence in PostgreSQL, MariaDB and Oracle DB; task management with Jira.

Freelancer
Full Stack Developer · *Remote*
Custom web application development for small businesses with React, Node.js, TypeScript, NestJS, and MongoDB Atlas.
